THE OFFICIAL PUBLICATION OF

NEW 2017 OFF-ROAD PRODUCTS FROM THE SEMA SHOW

1 KING SHOCKS

TOYOTA TACOMA STAGE 3 FRONT RACE KIT

King Shocks has a Stage 3 Race Kit for 2016 model Toyota Tacoma trucks, that consists of a bolt on 3.0 diameter Internal Bypass suspension system. It's designed to give the vehicle better control and elevates the truck's on and off-road performance.

2 SAFECRAFT

UTV AUTOMATIC FIRE SUPPRESSION SYSTEM

Safecraft's fully automatic, thermal-activated fire suppression system for the UTV market provides suppression to both engine and fuel areas. The system is easy to install and puts the thermal sensor on a flexible line routed directly to areas that count. Billet brackets to mount the system on the roll bar are included.

3 VISION X LIGHTING

XP LED LIGHT CANNON

The 4.5-inch diameter Vision XP 40-Watt Single Source LED Light Cannon utilizes a 40-watt Luminus Single Source Chip, that shines further and brighter than the standard 25-watt Cannon. Each Light Cannon is 25 Lights In One with the help of the available polycarbonate snap-on covers. www.visionxusa.com.
